Appl. No. 10/783,736

Amdt. dated July 2, 2007

Reply to Office action of April 3, 2007 and subsequent Notice of Non-Compliant Amendment and subsequent phone call from Miss Evans of the USPTO

Remarks/Arguments**Patent US-2002/0018070 – Lanier, Jaron – Video****Superposition System and Method.**

Patent application US-2002/0018070 describes a mechanism on how to overlay an image on top of a background image. It concentrates on dealing with a moving video image.

No where in the application does it discuss going to an external server to decide on what background image to display.

Instead, US-2002/0018070 discloses the process of how an image can actually be overlaid on top of another image.

Application 10/783,736 makes no claims on how an image is actually displayed, rather, application 10/783,736 concentrates on determining which background image shall be displayed.

Appl. No. 10/783,736

Amdt. dated July 2, 2007

US-2001/0005208 – Minami et al. – Scheme for interactive video manipulation and display of moving object on background image.

Patent application US-2001/0005208 describes a mechanism for displaying variable speed video playback. Application US-2001/0005208 makes no reference on changing the background image based on real time information that was received via a network.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

David Ray Burritt
